

Recording your PowerPoint presentation

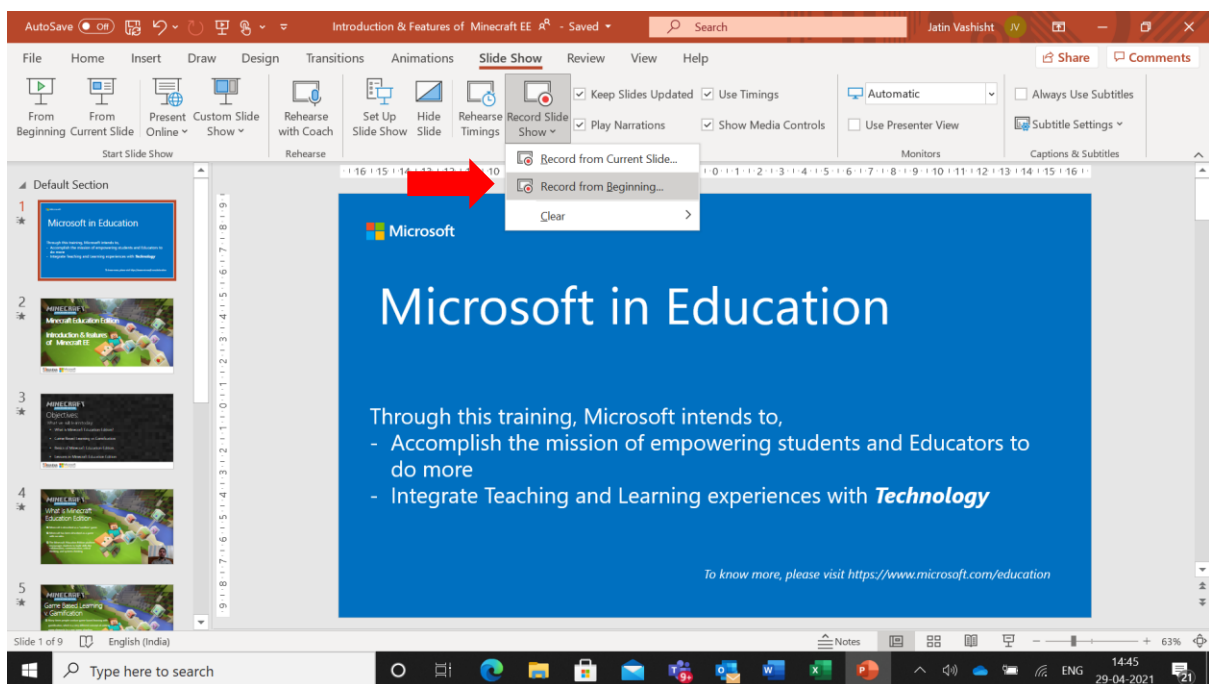

Step 1

Go to slide show tab and click record slide show.

Step 2

Choose "record from beginning".

Step 3

Click record button.

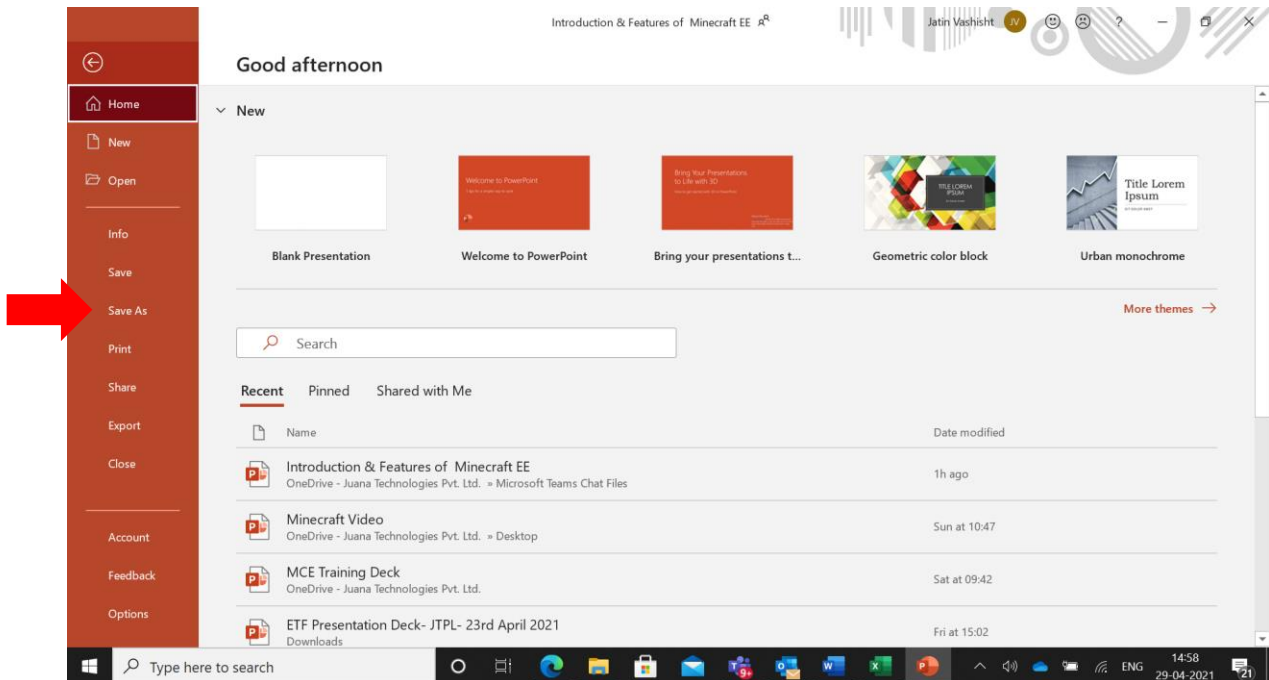

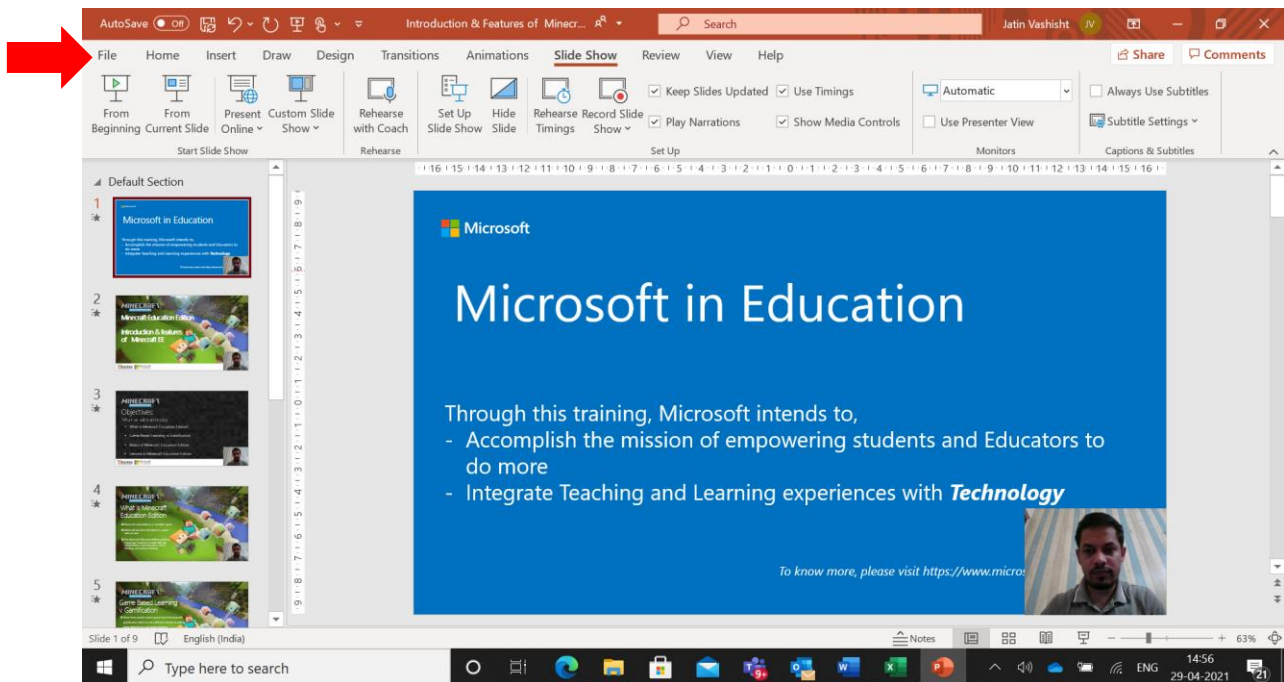

Step 4

After completing your presentation, click stop button and the Esc key on the keyboard.

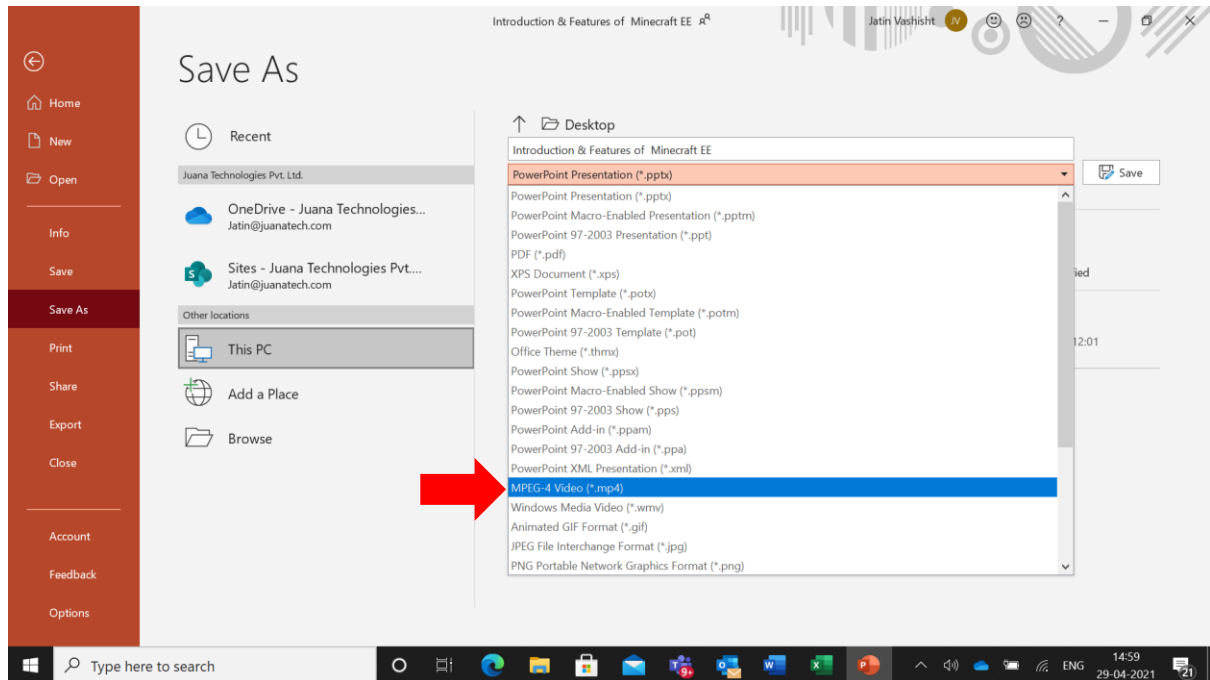

Step 5

Now you will see your recorded video on every slide. From here go to Files tab and then choose save as.

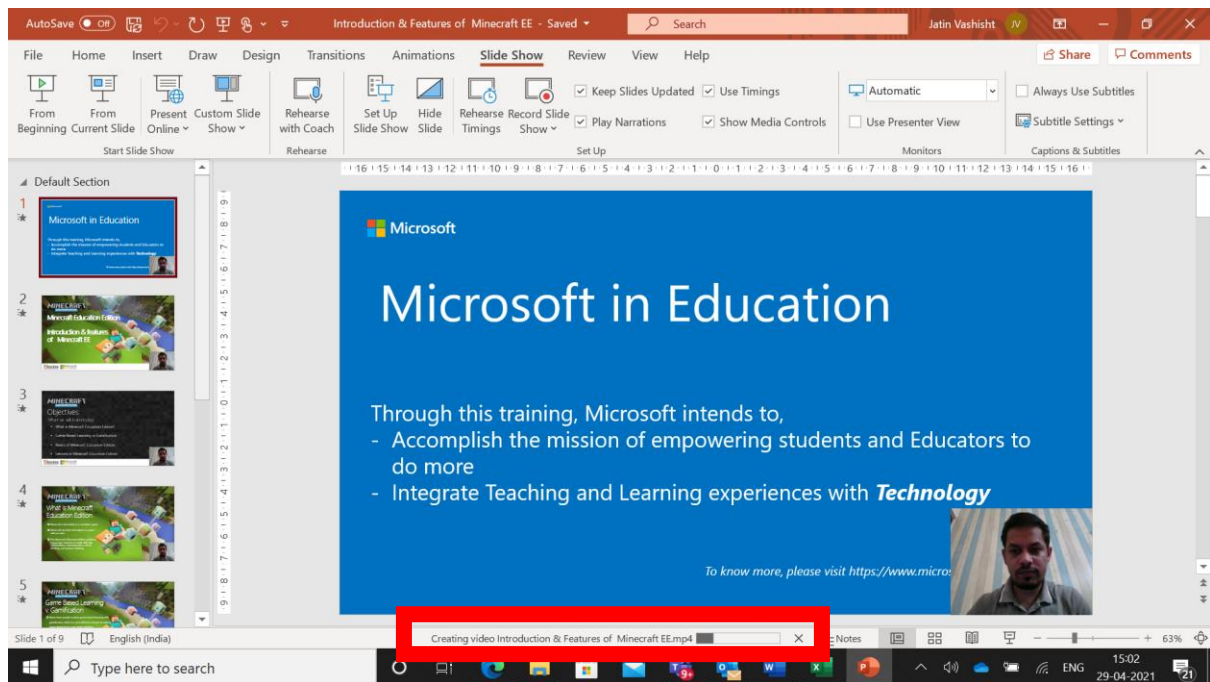

Step 6

Save it as MPEG – 4 (.mp4) video on your device.

Step 7

Wait for the file to process and get saved.

Play and check, then share the link of this video with us by uploading it to your one drive.
